On December 2, 2011 Delmarva Power & Light Company ("Delmarva" or the "Company") filed with the Delaware Public Service Commission (the "Commission") an application seeking approval of an increase in its electric base rates and

miscellaneous tariff changes. The application has been docketed as Docket No. 11-528. In its application, Delmarva seeks an increase in annual operating revenues of \$31,760,741, or 4.97% over present rates. The Company cites several reasons for its request, the most significant being a need to recoup a portion of its approximately \$224.7 million investment in its distribution system over the past five years. This investment was needed, among other things, because the Company has enhanced its system reliability, improved its response to major storms, diversified its energy supply portfolio and installed its AMI system.

Public Comment Sessions are for the purpose of receiving statements from customers concerning the service being provided and other matters that are the subject of the Commission's investigation. *Anyone who plans to attend a Public Comment Session is cautioned to consult the Commission's website on the day of the respective session for cancellation of or changes in the time, place or date of the event.* People who wish to comment on Delmarva's application or would like to comment on Delmarva's service quality, but who are unable to attend one of the public comment sessions, may file written comments with the Commission, at the above address, no later than **May 4, 2012**.
